George Chiramal Davis

Lead UX Design Manager @ Jio Platforms

Mobile: 9164534016 • Email: georgeuxd@gmail.com

George is a Lead UX Design Manager (DGM) with 15 years of experience in UX design, including 4 years as a techno manager. He is skilled at leading multi-domain design teams and developing a user-centered design vision. His expertise includes refining the product-led growth strategy for high-growth regions, and designing complex solutions across various domains (Automation, Identity, Healthcare, eCommerce, IoT, Design Systems). He has hands-on experience designing for customer ecosystems while ensuring design alignment across diverse platforms and global guidelines. He excels at aligning cross-functional teams through storytelling, evidence-based design, co-creation, and accountability.

Skills

- Design Leadership & Strategy, Storytelling & Storyboarding, Facilitating ideation, co-learning and review workshops, Aligning cross-functional teams, Team Building & Mentorship, Agile UX
- Qualitative & Quantitative Research: Interviewing, Heuristic evaluation, Contextual enquiry, Usability Testing, Survey, Journey & Persona mapping, Jobs to be done
- Design: User-centered design, Omni-Channel UX, 360 Customer Ecosystem, Design Systems, AI-based tools, Information architecture, Accessible design, Conversational UX, Wireframing, Prototyping, Cross-platform UX (Android, iOS, Web, WebOS for TVs,)

Experience

Lead UX Design Manager/ DeputyGM - Jio Platforms - Mar 2022 to Present

Head UX for JioID & Auth, JioSign, JioConsent, and Retail Merchandiser, driving the initiative to improve customer experience across the Reliance ecosystem and build Centralised SaaS.

- Delivered localized solutions for a rapidly expanding customer base, unifying ID for +500 million customers, on-route to 1.2 Billion customers in high-growth regions (India).
- Collaborated with engineering services to resolve UX adoption concerns and communicate design specifications across multiple devices and platforms, including: Android, iOS, Web, Mobile Web, Jio

Bharat (Basic Phone), JioBook (White-labeled Chromebook), and Jio Set-top box.

- Partnered with product management, engineering, and marketing teams to co-create and define the design vision, strategy, and principles.
- Aligned cross-functional teams on the vision, customer outcomes, and UX priorities through evidence-based insights.
- Successfully integrated white-labeled solutions into the ecosystem by creating a mobile-first experience for JioSign (digital signature SaaS), which improved NPS from 5 to 9.
- Led a team of 8 UXers, overseeing recruitment and performance, and ensuring features are in compliance with national authorities.
- Drove a 70% improvement in Recommendation Conversions on JioMart.

Management experience at Jio

- Built & leads a team of 8 UXers, refining their craft through design workshops, critiques, actionable feedback, coaching, and mentorship.
- Created business justification & job descriptions, collaborated with HR and other leaders for approvals and recruitment. I've hired & onboarded designers for my team, and other teams.
- I review performance, manage conflicts and other day-to-day L1 duties.
- Work with the legal, sales & marketing teams to ensure that their expertise are considered.

Lead UX Designer - Athenahealth - Aug 2018 to Mar 2022

- Led the UX research & design of New Quality Measures Management experiences.
- Collaborated with research ops team and international stakeholders to improve value-based Care Quality experiences at the Point of Care.
- Increased the quality of leads by 25% on Athenahealth.com (without changing anything on the website!) and reduced lead follow-up time from 48 hrs to 30 mins.

Sr. UX Designer - Honeywell - Jun 2014 to Aug 2018

- Maintained a strong relationship with the other design teams when I **designed the eDLS** (Design System) for Transport & IT Enterprise, later I became the **Design Council member** of the Honeywell Design System.
- Ensured adherence to brand principles and alignment across touchpoints by redesigning the information architecture and site of Honeywell.com for key personas.
- **Designed various Funded PoCs using ecosystem design principles**: Connected Drone Surveillance, Automation Bot builder (RPA/Chatbots) IDE/marketplace called Autobots, and

Connected employee experience now AKA Digital Workplace. Designed TCX a Modular, Responsive B2B e-commerce templates still used.

- Researched & reported on global variations in field issue reporting for Garret Turbochargers.

IBEE Solutions - UX Designer Mar 2013 - Jun 2014

Designed various iOS, Android & Web Apps

July Systems - Design Consultant Mar 2012 - Mar 2013

Designed WYSIWYG App IDE that Sped up the 'Go to Market' time from months to weeks.

Freelance Designer Jun 2011 to Mar 2012

Designed print brand identity for small businesses

Education

BA Hons, Graphic Design, University of Central Lancashire Sep 2008 - Jun 2011
